Podiatry Measurement Tools

MAA

MAA is the Metatarsal Adductus Angle. That measured the adduction angle of metatarsal bone.

PASA

PASA is the Proximal Articular Set Angle. The angle formed by a line representing the effective articular cartilage and a line drawn perpendicular to the first metatarsal bisection.

Bunion Angle

This is measurement method for diagnostic hallux valgus.

TCA

TCA is Talo-Calcaneal Angle. This is measurement method for diagnostic Pes cavus(High arch foot).

DASA

DASA is the Distal Articular Set Angle. That measured the distal joint angle of Proximal phalanx & Metatarsal bone.

TASA

TASA is the Tangential Angle to the Second Axis.

TNA

TNA is Talo-Navicular Angle. The normal angle range between the articular surfaces of talus & the navicular is less than 7 degrees.

Kite's Angle

Kite's Angle is a measure method for diagnostic Pes planus (Flat foot).
