TCell

Continuous Odour Control System

The world's first continuous odour control system is the latest innovation by Technical Concepts. Using a patented fragrance delivery system, the TCell delivers a precise dose of pure designer fragrance and odour neutraliser for 60 days without the use of batteries.

Five good reasons to buy...

- 1 First of its kind! New innovative air care system that is ecological and truly effective
- 2 Creates an environment that is **permanently fresh all day, every day**, throughout the 60 day refill life
- 3 Smells clean... is clean. A well cared for facility will improve employee morale and **increase customer satisfaction**
- 4 Consumer-preferred designer fragrances are the **best of their kind**
- 5 Ecologically-friendly – no VOCs, no batteries and with recyclable components

Why Technical Concepts?

For as long as we've been around, Technical Concepts has developed innovative hygiene solutions for the washroom. Today, we are a global leader, designing and manufacturing products that make washrooms cleaner, more environmentally-friendly and more cost effective to maintain.

Through our commitment to research and development, we are constantly seeking ways to improve our already industry-leading reliability, ease of installation and user-friendly performance.

The Perfect Environmental Solution

TCell promotes a clean, fresh washroom in an environmentally friendly way:

- Operates without batteries
- No propellants or added VOCs

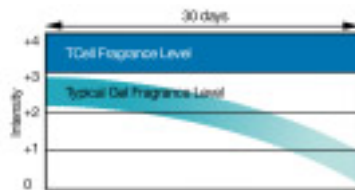

A Long-Lasting Odour Control Solution

The TCell odour control system by Technical Concepts dispenses a consistent level of fragrance continuously over 60 days. Conventional gel systems lose their fragrance intensity over the life of the refill, but TCell remains constant. And when it is time to change the refill, it is quick and easy to do.

TCell refills contain Microtrans®, a true odour neutraliser. We use only the finest quality fragrance oils to reinforce the cleanliness of the washroom and image of the facility. They are available in a wide range of customer preferred fragrances from mild to intense for a clean, fresh scent that lasts.

Fragrance Effectiveness:
TCell vs. Gel

Fragrance Intensity Range

How TCell Works

The fuel cell generates hydrogen within the fragrance chamber. As the hydrogen is generated it forces (pushes) an equal volume of fragrance out of the chamber. Natural air flow in the washroom distributes the fragrance throughout the room.

Chrome, White, Grey
and Black Dispenser

Continuous Odour Management System

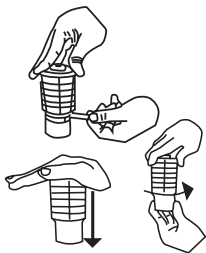

Each refill delivers 60 days continuous fragrance and covers an area up to 6000 cu ft (168 cu m)	Long refill life outperforms traditional gel products
Consistent level of fragrance throughout refill life	Delivers the same intensity of fragrance on Day 60 as Day 1
Contains Microtrans® odour neutraliser	Breaks down and eliminates unpleasant odours
Simple 1-minute installation and trouble-free operation	Noise-free dispenser, no moving parts during operation
Discreet, decorative dispenser	Ideal for many areas of use e.g. washrooms, conference rooms, lifts, office environment
Pure fragrance and odour neutralisers No propellants No added VOCs No batteries or plug-in electrical source needed Recyclable refill components	The perfect environmental solution – complies with WEEE Directive and Batteries & Accumulators Directive
Five high quality, high impact fragrances preferred by consumers	Reinforce the high standard of room cleanliness and create a comfortable environment

TCell - Power innovation

Each refill cartridge contains a small power cell that uses innovative TCell technology to precisely administer minute doses of pure fragrance. All refill components are recyclable.

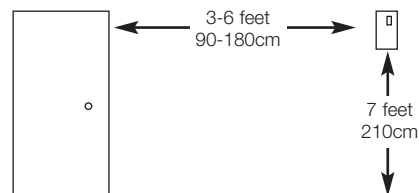

Product Specifications:

Dispenser size:	H 134 mm x W 70 mm x D 64 mm
Dispenser Case pack:	12
Colours:	Chrome, White, Grey, Black
Refill life:	60 days
Refill case pack:	6
Fragrances:	<p>Crystal Breeze - Fresh, clean herbal fragrance dominated by Eucalyptus, combined with softer notes of rosemary, amber and precious woods</p> <p>Blue Splash – Watery marine notes blended with bergamot and rosemary</p> <p>Polar Mist – a blend of lavender and wild mint</p> <p>Floral Blaze – a fresh floral with woody notes of sandal and cedar added with amber and musks to bring out the fullness of the fragrance</p> <p>Citrus Mix - A fresh lively and zesty orange fragrance with notes of grapefruit and green lemon</p>

Dispenser Installation

Position the dispenser in an area where moving air will disperse the fragrance and neutraliser throughout the entire area, normally 3 to 6 feet from the doorway.

System coverage:	6,000 cubic feet (168 cu m) 20 ft x 30 ft x 10 ft (6m x 9m x 3m) 3-4 stall/fixture washroom
-------------------------	---

Lifetime Warranty

Fully guaranteed against defects of parts and workmanship.
